EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Vince Sunderdick on 10/13/05.

The application has been amended as follows: **In claim 13 line 7, "alone" has been deleted and replaced with -- along --.**

2. The following is an examiner's statement of reasons for allowance:

Regarding claim 13 the prior art of record does not teach or suggest alone or in combination, the combination of elements including the plurality of connectors along one side of the PCB and at least one control module with a silicone supporting board soldered to the PCB. The previous two office actions gave the reasons for allowance of the other independent claims. The prior art of Maue et al discusses some claim elements except for bonding wires and a multi layered PCB (41 in fig. 2 is not a PCB). The prior art of Chiriku et al discusses some claim elements except for bonding wires and multi layered PCB (fig. 5 41 is insulating

plates). The prior art of Onizuka et al discusses some claim elements but no multi layered PCB or silicone support board or a plurality of connectors on one side of PCB.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
